

## 2012 Student Sustainability Survey

The open-ended question yielded several hundred responses. We asked, “Of Suffolk’s environmental initiatives, what’s made the biggest impression on you?” Here are some responses:

- “Frequent opportunities to recycle throughout the building”
- “Many of the initiatives Suffolk has put in place seem ahead of the curve, for example the LED bulbs for new students, composting options at trash areas & the dual-flush toilets throughout the campus.”
- “The water bottle-filler water fountains. Awesome.”
- “I was impressed by how the bookstore is carrying environmental products.”
- “I like the locally grown fruit in the cafeteria...”
- “The fact that you are constantly evaluating current implementations and what more can be done in conjunction with students/faculty/staff input.”
- “Getting rewards for recycling - nice!”
- “Good at communicating the "how-to's" ... the signs and labeling is very clear on the bins.”
- “How high we are rated as a school in environmental initiatives/programs nationally.”
- “I think it's fantastic that Suffolk is trying to make a positive impact on the environment.”
- “The entire Suffolk staff seems on board with recycling, and everyone gets the students involved. When I was a freshman living at Miller, my RA spent a lot of time talking about the recycling program and how we needed to do it. My floor always recycled, and it became a normal routine.”
- “I thought the "bring your own bag" to the bookstore was pretty cool.”
- “The fact that these programs and events are designed for Suffolk students to take initiative in doing what we can to sustain our environment.”
- “I live in 10 West and I always see signs up explaining how this entire building is eco-friendly and that made a big impression on me.”
- “It has taught me that going green and recycling are two very big aspects when attending here at Suffolk, and I admire and support that completely.”
- “The emphasis they put on how important it is to save energy whenever you can, wherever you can.”
